

Quick Start For Site Planning

Login to www.farmstar-ecs.com with your user account

SITES

- Select “Sites” to see a list of active sites or hit **CREATE A SITE** to start a new one
- Click on “Create a site” to prompt the dialog box to pop up
- Click on the map icon to view or edit the site map.
- Click on the notes icon to view or edit site notes.

The screenshot shows the 'ACTIVE SITES' page in the BAZOOKA FARMSTAR application. The page features a dark sidebar on the left with navigation options: Dashboard, Jobs, Crew Members, Devices, Notifications, Sites (highlighted with a red arrow), Feedback, and Home. The main content area displays a list of active sites, each with a name, the number of active fields, and a location address. Each site entry includes a map icon, a notes icon, and a three-dot menu icon. At the bottom of the page, there is a prominent yellow button labeled 'CREATE A SITE' with a red arrow pointing to it. A link 'GO TO ARCHIVED SITES' is also visible at the bottom of the list.

Site Name	Active Fields	Location
pork paradise farms	7	22443 Co Rd G62, Winfield, IA 52659, USA
Wesley Rinner Farm	7	2625 320th St, Wavland, IA 52654, USA
Morning Star Farm	0	1535 280th St, Brighton, IA 52540, USA
Hilltop dairy	0	3340 Spruce Ave, Mt Pleasant, IA 52641, USA
Acorn Bluff	0	12856 Q Ave, Columbus Junction, IA 52738, USA
Halane Farms	0	2121 US-61, Muscatine, IA 52761, USA
Putnam Farms	0	2463 Jasper Ave, Letts, IA 52754, USA
Hotz Farms	0	5310 640th St SE, Lone Tree, IA 52755, USA
Silver bell hollow	0	13409 311th St W, Illinois City, IL 61259, USA
Buck Ridge Hops Farm	2	1460 241st St, Letts, IA 52754, USA

CREATE A SITE

- After “Create a site” is clicked a dialog box will appear
- Fill in the site details in the boxes shown on the right
- The site **address & name** is the only pieces of information you must enter in order to create an active site
- You can add your notes and come back to add details later
- The address you enter will take you to a high-level satellite view of the site you wish to map
- Notes section saves up to 500 characters
- Note that you **MUST** select an address from the pop-up list that appears when you type in an address. If you do not, the map location will not load correctly.

SITE NOTES

- Site details page offers a high-level satellite & a google street view of your site for better reference of location
- Send site details via email or text message when you click the “share” icon 
- Edit any details or notes for the site when you click on the  icon

The screenshot displays the BAZOOKA FARMSTAR mobile application interface. At the top left is the logo 'BAZOOKA FARMSTAR' and at the top right is the user profile 'Bazooka Demo #2'. A dark sidebar on the left contains navigation icons for Dashboard, Jobs, Crew Members, Devices, Notifications, Sites, Feedback, and Home. The main content area shows the site details for 'pork paradise farms'. It includes a 'BACK' button, an edit icon, and the following information:

- Address:** 22443 Co Rd G62, Winfield, IA 52659, USA
- Site-Manager Contact:** Porky pig, +1 (319) 275-9682, porkypig@bogus.com
- Notes:** organic farm

Below the text is a 'SHARE' button. To the right is a Google Street View image of the farm, with a location pin for '22437 Co Rd G62, Columbus Junction, Iowa'. At the bottom of the screen are 'SITE MAP' and 'DOCUMENTS' buttons. The version number 'v1.0.94' is visible in the bottom left corner.

SITE MAP VIEW

- Your address entered will show you a high-level satellite view of the location you entered
- Click “edit Map” to enable the mapping tools

SITE MAP VIEW

- Select between a satellite image or a view of the site with terrain & labels enabled to see where there may be some elevation changes in your set up and what landmarks are nearby

SITE MAP EDITING - 1

- Once In mapping mode, you can mark out your fields (given labels for each) and get the total size in acres for each
- Pit, field, & obstacle work the same way when selected, click the feature and then mark out your section
- Additional points can be added to your Pit, Field, & Obstacle for a more accurate calculation or visual of this feature

SITE MAP EDITING - 2

- When you select a Hose, Drag Hose, or Pipeline you must enter in the diameter to define the line size when mapping out this feature
- When applying a line, select the feature then start clicking until you are done, at that point you must select the feature again to turn off placing more markers
- You can use the calculate tool in the top right corner to determine hose length and elevation changes from point A to B
- Add notes to these features and group within a cluster of other items in this map

SITE MAP EDITING - 3

- By adding icons like Pump, Culvert, & Riser pipe, simply select the option on the left & drop on the map as desired
- When needing to move an icon, simply select icon, it will enlarge and become outlined to mark you have selected item, this will then allow you to move icon where desired
- Add notes for these features in the top dialog box above map

SITE MAP EDITING - 4

- Group features & assets as you see fit by using the “Create Group” feature, this will allow for a cleaner more organized view of your sites with the ability to show only what you need for effective communication
- You can also stick items in more than one group as these items may be used elsewhere at the same site

ADDING CREW

- Enter in some basic role information to have the ability to share site details, maps, or directions to members on your team
- Restrict access to sensitive files or limit mapping features to a view only format when creating crew members accounts
- Crew member accounts only have the ability to view maps and documents allowed to see by leaders or owner
- Crew leader accounts have the ability to make all adjustments in maps, see all documents saved, and send links to other members
- Once invite has been sent, the recipient should receive the invite within a minute or less no matter the method
- From there they will need to create their own set of credentials to have the ability to log into this owners account

The screenshot shows a dark-themed mobile application interface for adding a crew member or leader. At the top right is a close button (X). The main heading is "ADD CREW MEMBER / LEADER" in white, bold text. Below it is a subtitle: "Fill out the information below for the person you would like to add to your crew." The form consists of several input fields: "First Name", "Last Name", "Email Address", and "Phone Number", all in a light gray color. Below these is a "Choose Role Type:" dropdown menu with a dark gray background and a white downward arrow. The dropdown is open, showing two options: "Crew Member" and "Crew Leader" in white text. Below the dropdown are two radio button options: "Send Invite Link By Email" and "Send Invite Link By Text", both with light gray radio buttons. At the bottom are two large buttons: a yellow "ADD TO CREW" button and a gray "CANCEL" button.

DOCUMENTS

- Click “Upload Documents” to save any files related to your site within this dashboard digitally
- Save site documents such as PDF, JPEG, & PNG files, as well as the ability to download files directly to your device
- Restrict certain documents based on user levels for better security of sensitive information, crew members are restricted while crew leaders are not
- By selecting the document and then selecting the Lock icon, a dialog box will appear confirming this action restricting access to crew members

The screenshot displays the BAZOOKA FARMSTAR dashboard interface. On the left is a dark sidebar with navigation icons and labels: Dashboard, Jobs, Crew Members, Devices, Notifications, Sites, Feedback, and Home. The top right corner shows the user profile 'Bazooka Demo #2'. The main content area features a grid of document thumbnails. The largest thumbnail is a photograph of a green and yellow agricultural implement with multiple disc blades. Below this thumbnail are two lock icons (a closed lock and an open lock) and a set of action buttons: VIEW FULL, EDIT, DELETE, and DOWNLOAD. A large red arrow points from the lock icons down to a yellow banner at the bottom of the screen that reads 'UPLOAD DOCUMENTS'. The version number 'v1.0.96' is visible in the bottom left corner.

MAP VIEW – CREW MEMBER

- Crew member level limits access to sensitive information and full mapping features
- Locking the selected documents will disable the crew member to access these sensitive files
- limits the access to maps making them view only with the ability to hide and show groups of what has already been defined in a site map

SITE DETAILS

- List of “Active Sites” that allows you the ability to reorganize these sites in any kind of order using a tablet or desktop
- When using a tablet, simply touch this  icon and drag into position, on desktop click  icon and hold for one second before moving into position
- Click this  icon to either delete site or archive into another folder to separate your active from in-active fields
